AMERICHEM TO EXHIBIT AT UPCOMING AUTOMOTIVE INTERIORS EXPO

MANCHESTER, UNITED KINGDOM (April 30, 2013) – [Americhem Inc.](#), a global provider of custom color and additive solutions for polymeric products, will exhibit at the Automotive Interiors Expo 2013, being held June 4-6 at Messe Stuttgart in Stuttgart, Germany.

Americhem’s display, located at stand number A5440, will feature the company’s latest products, including scratch and mar additives, molded-in-color paint replacement parts, and a wide variety of the company’s color and additive masterbatches for automotive applications. Americhem’s masterbatch products offer many cost and durability advantages over pre-color compounds commonly used in automotive applications.

Company experts will be on hand to answer questions and to provide product details and additional information.

Americhem color and additive products appear in a number of well-known vehicles and the company specializes in coloring technology that promotes in-vehicle color harmony across a variety of materials and manufacturing processes. Common automotive applications include injection-molded instrument and door panels, headliners, floor coverings, seat upholstery, side view mirrors, running boards and interior and exterior trim.

All of the company’s offerings are backed by central research and development labs located in Cuyahoga Falls, Ohio, U.S.A. The company utilizes formulation and testing expertise derived from a wide range of plastics industries that it serves including architectural products, synthetic fibers, engineering materials, electrical and electronics and packaging and containers.

For more information on the company’s products and services for the transportation industry, including a complete listing of global OEM color approvals, visit www.americhem.com/markets/automotive.

About Americhem

Americhem is a global organization that delivers custom color and additive solutions for customers seeking superior performance and batch-to-batch consistency for their polymer products. The company specializes in color and additive masterbatches, and single pigment dispersions, all backed by complete technical support that ensures quality, reliability and value. Americhem operates seven manufacturing plants and also maintains a representative sales office in Luxembourg and Monterrey, Mexico. Central Research &
