**AMERICHEM AND INFINITY ENGINEERED COMPOUNDS ANNOUNCE ACQUISITION OF
LTL COLOR COMPOUNDERS, INC.**

CUYAHOGA FALLS, OHIO (DEC. 3, 2014) – Infinity Engineered Compounds, part of the Americhem group of companies, is announcing today the acquisition of LTL Color Compounders, Inc. of Morrisville, PA., a leading producer of custom color engineered thermoplastic compounds. Infinity and LTL will be joined to create Infinity LTL Engineered Compounds, an Americhem group company.

LTL Color Compounders, Inc. is known as one of North America’s premier color compounding companies. Founded in 1990, LTL is focused on a wide variety of industries, including medical, automotive, recreational vehicle, construction, electronics, consumer and aerospace. They maintain a 70,000-square-foot compounding plant in Morrisville and a manufacturing plant and Asia headquarters in Dongguan, China. Both are certified to ISO 9001:2008 and ISO 13485:2003 quality standards.

“ With the creation of Infinity LTL Engineered Compounds, these two respected entities will be run as a single company which will offer one of the industry’s widest product lines,” remarked Carlos Carreno, president of Infinity LTL. “ Both of our companies are technology based, customer service oriented and dedicated to providing customized solutions,” Carreno continued. “ The combined Infinity LTL business will offer customers a broad product portfolio of engineered thermoplastic compounds combining Infinity’s expertise in structurally reinforced, internally lubricated and electrically conductive compounds with LTL’s best-in-class color and polymer alloy technology.”

LTL also offers research and development laboratories, analytical, physical and mechanical product testing, color matching, field service and product development services. “ Both of our companies focus on partnerships with customers that help resolve difficult compounding challenges,” said James Figaniak, president of LTL.

About Infinity Engineered Compounds

Infinity Engineered Compounds, located in Swedesboro, New Jersey, manufactures and sells engineering grade, custom compounded polymer composites to meet the demands of specific customer applications. Utilizing a wide variety of reinforcements, fillers and lubricants in over thirty engineering resins, the company enhances the base resin properties and creates an infinite variety of thermoplastic compounds. For more information, visit americheminfinity.com or call 856-467-3030.

About LTL Color Compounds

LTL Color Compounds is a leading global custom color and additive compounder with manufacturing locations in North America and Asia. The company specializes in a wide range of engineered polymers with no minimum order size and provides a high level of technical support and a flexible customer-focused style. LTL operates two manufacturing facilities in Morrisville, PA and Dongguan, China, in-house R&D laboratories and over 150,000 sq. feet of production and warehouse space. For more information, visit ltlcolor.com or call 800-863-4260.

About Americhem

Americhem is a global organization that delivers custom color and additive solutions for customers seeking superior performance and batch-to-batch consistency for their polymer products. The company specializes in color and additive masterbatches and single pigment dispersions, all backed by complete technical support that ensures quality, reliability, and value. Americhem operates eight manufacturing plants and also maintains a representative sales office in Luxembourg and Monterey, Mexico. Central Research & Development facilities and headquarters are located in Cuyahoga Falls, Ohio. For more information visit Americhem.com or call 800.228.3476.
