INFINITY COMPOUNDING IS RENAMED AMERICHEM INFINITY ENGINEERED COMPOUNDS TO REFLECT CONTINUING SYNERGIES WITH AMERICHEM

CUYAHOGA FALLS, OHIO (May 6, 2014) – Infinity Compounding, a leading manufacturer of custom compounded engineered thermoplastics, has taken on a new identity and now will be known as [Americhem Infinity Engineered Compounds](http://www.americheminfinity.com) to reflect its close association with sister company [Americhem, Inc.](http://www.americhem.com) The renaming of the company reflects business synergies between the two companies and the fact that Americhem Infinity has the backing and capabilities of Americhem and all that those attributes offer to their customers.

“The new name and brand identity for Americhem Infinity reflect the similarities between the two companies, in that both companies enhance the properties of polymers for our customers,” said Rick Juve, CEO of Americhem. “Combining the size, scale, reach and the unique technologies of the two companies will further benefit the customers of both organizations.”

Americhem Infinity’s products are currently manufactured at its Swedesboro, New Jersey, headquarters. Going forward, Americhem’s plants in Liberty, North Carolina, and Suzhou, China, will also manufacture Americhem Infinity compounds.

“Our customers can expect the same partnership that they’ve enjoyed with Infinity since its founding in 2005,” said Carlos Carreno, president of Americhem Infinity. “We will maintain our focus on speed-to-market, service, and technical expertise, and our customers will only benefit from our continued affiliation with Americhem, who focuses on the same facets of customer partnership.”

In recognition of the rebranding of the company, Americhem Infinity has launched a new website—www.americheminfinity.com—focusing on its products, markets and applications. It is fully integrated with the new Americhem website, which was launched in January 2014.

Purchased by Americhem in December 2012, Americhem Infinity specializes in highly engineered thermoplastic compounds, serving a variety of industries including medical, electrical/electronics, business machines, IT/disk drive, aerospace, industrial and consumer products. Americhem Infinity’s compounds are made with a wide variety of engineering resins, feature a multitude of reinforcement and filler options along with specialty additive packages to meet stringent demands.

About Americhem

Americhem is a global organization that delivers custom color and additive solutions for customers seeking superior performance and batch-to-batch consistency for their polymer products. The company specializes in color and additive masterbatches, and single pigment dispersions, all backed by complete technical support that ensures quality, reliability and value. Americhem operates eight manufacturing plants and also maintains a representative sales office in Luxembourg and Monterrey, Mexico. Central Research & Development facilities and headquarters are located in Cuyahoga Falls, Ohio. For more information visit Americhem.com or call 800.228.3476.

About Americhem Infinity

Americhem Infinity, located in Swedesboro, New Jersey, manufactures and sells custom compounded, engineering grade, polymer composites to meet the demands of specific customer applications. Utilizing fillers and reinforcements, and a broad variety of engineering resins, the company enhances the base resin properties and creates an infinite variety of compounded products in the form of plastic pellets.
