AMERICHEM EUROPE LTD. TO DEBUT NEW LINE OF PRODUCTS FOR NYLON 66 AT ITMA 2015

MANCHESTER, UNITED KINGDOM (8 OCTOBER, 2015) – Americhem Europe Ltd., a global provider of colour and additive solutions for synthetic fibres, will debut its new line of specialty products for nylon 66 at the upcoming ITMA 2015 tradeshow in Milan, Italy, from 12-19 November, 2015. The products are a result of a research and development focus on fine denier nylon 66, and the portfolio contains a variety of colours as well as a range of additive functionalities.

“The products are a result of intensive research and product trials of matching colours in fine denier nylon 66,” stated Michael Frisch, Americhem’s technical director, EMEA. “We believe our knowledge and research capabilities are unique compared to the rest of the colour and additive suppliers in the European synthetic fibres industry.”

The product portfolio contains a variety of colours including whites, blacks, naturals and fluorescents. A wide range of functional additives are also included, such as:

- Flame retardants
- UV stabilizers
- Antisoil additives
- Antistats
- Antimicrobials
- Hydrophobics
- Optical brighteners

Visitors can stop by Americhem’s ITMA booth, located at Hall 8, Stand F105 at the Fiero Milano Rho or contact Michael Frisch for more information on the benefits of this new product line at mfrisch@americhem.com.
