

## Americhem Announces Building & Construction Webinar

**Cuyahoga Falls, Ohio (August 18<sup>th</sup>, 2020)** – Americhem, a globally recognized designer and manufacturer of custom color masterbatch, functional additives, engineered compounds, and performance technologies, has announced the next webinar in their recent series, called “Weathering in PVC Compounds 301” that will take place on August 27<sup>th</sup>, 2020.

This webinar will teach you how different Building & Construction polymeric applications react to weathering testing and the results. The presenters will discuss different additive options to make the perfect compound or masterbatch for your application to withstand a variety of weathering conditions.

### Key Takeaways:

- Types of Building & Construction specific masterbatches & compounds
- Other types of additives for Building & Construction applications
- ePVC performance highlights
- Weathering testing & results in multiple end applications & regions

### Event Details:

- Thursday, August 27<sup>th</sup>
- 9:00 - 9:30am EST
- Presented by Americhem's Mike Fair and Kelly Gager
